PAYMENTS

Application Fee $50 USD
After completing the application, prospective students should be prepared to submit the $50 USD application fee. This fee is waived for international students who visit our campus before enrollment or are working with one of Indiana Tech’s approved agencies/companies. See “Payment Options” for details on how to submit this payment.

Once accepted to Indiana Tech, students will need to pay housing deposit and tuition deposit in a timely manner.

Tuition Deposit $1,000 USD
The tuition deposit is a payment toward the student’s account and is deducted from the estimated bill. Once submitted, the student will be able to participate in an upcoming registration day.

Dorm Deposit $350 USD
The dorm deposit is similar to a renter’s fee and stays on the student’s account until he/she moves off campus. If the dorm room contains any damages at the time of move out, charges will be deducted from the dorm deposit. When the school is notified that the student is moving off campus, the dorm deposit is returned to the student after the close of the semester. Housing assignments are issued after May 1st (for semester beginning in August) and after December 1st (for semester beginning in January). Housing assignments are made once the dorm deposit and housing application are both received.

Tuition deposits and dorm deposits are refundable until May 1st (for semester beginning in August) and until December 1st (for semester beginning in January), if the request is made in writing (i.e. email or fax). Deposits are also refundable if the student is denied his/her visa, pending the student provides proof of the denial.

Housing Application
After submitting the deposits, students should complete the online housing application. To learn more about the housing options and apply for housing, please visit www.IndianaTech.edu/Housing.

PAYMENT OPTIONS
